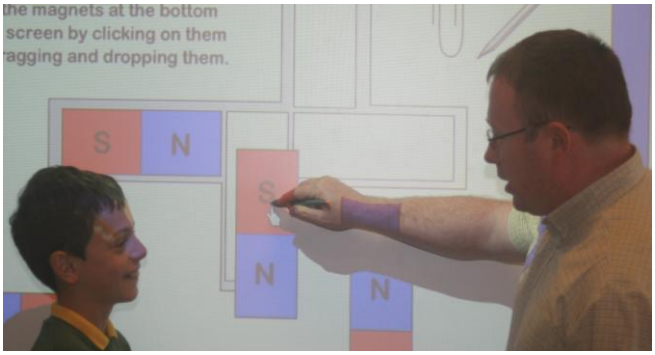
The Marchant Holliday School

We are an Independent, Residential Special School with charitable status, approved by the DCSF for Boys aged from 5 to 12 years, who present with Behavioural, Emotional & Social Difficulties.
(including aspects of Autistic Spectrum Disorder & other conditions)

The Marchant Holliday School provides a….

"unique, highly specialised and therapeutic level of care to children who present a range of educational and behavioural challenges"
(Ofsted 2010)

The School is set in 10 acres of its own grounds in beautiful rural surroundings near Wincanton in Somerset. It is close to the A303 and readily accessible from all parts of Southern England, the Midlands and Wales. There are mainline railway stations nearby at Templecombe and Castle Cary.



We accept referrals from Children's Social Care and Local Authorities from across the London, South and South West of England, as well as from the Midlands & South Wales.

Whilst the majority of our boys board fortnightly, we can be flexible in our provision. We are prepared to take short term placements and can offer day placements. We will also consider crisis or emergency referrals and exceptional cases.

“Children feel safe in a warm and protective environment and they enjoy the benefits of the extensive range of resources available to them” Ofsted 2010.

Our boys make significant academic and behavioural progress and we work together to ensure that they reach their full potential to become confident contributors to their community. A good proportion of our leavers successfully return to mainstream education.

The school has both Learning Support and Behaviour Support specialist teachers, who work with the boys on a 1:1 and small group basis. Any boy experiencing a specific learning disability or behaviour management difficulty can develop the many skills needed to achieve academic, social and emotional success. This enables inclusion at a school level (with full access to the curriculum), and healthy reconnection with family & community.

We ensure the boys have access to a range of support services if required, including speech and language therapy, physiotherapy and occupational therapy. Independent child counselling services are provided at the school.

We believe that in learning to relate to others, communicate effectively and appreciate others, boys will grow to become valued members of society.

We ensure that the boys are happy, safe and enjoy the process of learning during their time at the school. We place emphasis on developing their self esteem, confidence and a sense of physical and emotional well-being.
